

BSET

British Society of
Endovascular Therapy

The background of the middle section is a detailed anatomical illustration in shades of orange and red. It shows the musculature and skeletal structure of a human torso and arms. Overlaid on this is a complex network of red lines representing the vascular system, with a central focus on the abdominal aorta and its branching. The overall style is that of a medical textbook or scientific illustration.

BSET

Endovascular Training Course

Thursday 5th and Friday 6th March 2026
Tortworth Court Hotel, Wotton-under-Edge, South Gloucestershire

SESSION 1: IR-AAA

Including team working, planning, deployment and managing complications

Faculty Lead	<i>Shiva Dindyal</i>
