GORE® TAG®

Thoracic Branch Endoprosthesis

AN OFF-THE-SHELF ZONE 2 TEVAR DEVICE

A SINGLE ENDOVASCULAR PROCEDURE.

Helping you preserve the LSA without the need for surgical revascularization. Another first-of-its-kind innovation from Gore.

**Contact your Gore representative
for more information.**

PROGRAMME

Thursday 26th June

09.00 – 09.05	WELCOME	
	<i>Bijan Modarai, BSET President</i>	
09.05 – 09.35	ROULEAUX CLUB AND BSIRT SYMPOSIUM	
	<i>Chairs: Bijan Modarai, BSET President, Sai Wunnava, Rouleaux Club representative and Alex Hardman, BSIRT representative</i>	
09.05 – 09.15	Role of AI/augmented reality in endovascular interventions	
	<i>Maciej Juszcak, Consultant Vascular Surgeon, University Hospitals Birmingham NHS Foundation Trust</i>	
09.15 – 09.25	How do Vascular and IR learn how to lean on each other for the first few years	
	<i>Becky Sandford, Consultant Vascular Surgeon, Guy's & St Thomas' Hospital, London & Narayanan Thulasidasan, Consultant Interventional Radiologist, Guy's & St Thomas' Hospital, London</i>	
09.25 – 09.35	Discussion	
09.35 – 09.50	BSET FELLOWSHIP REPORT	
	<i>Chairs: Emma Wilton & Paul Moxey</i>	
09.35 – 09.40	2024 Training Fellowship	<i>Ellie Atkins</i>
09.40 – 09.45	2024 Travel Fellowship	<i>Mohammed Chowdhury</i>
09.45 – 09.50	2024 Travel Fellowship	<i>Colin Primrose</i>
09.50 – 10.30	ABSTRACT SESSION 1 (4 + 2 minutes)	
	<i>Chairs: David Bosanquet, Nikesh Dattani & Becky Sandford</i>	
09.50 – 09.56	Reproductive factors and the risk of incident peripheral arterial disease hospitalisation or death. A cohort study of UK Biobank participants	
	<i>Anna Louise Pouncey¹, Mark Woodward², Katie Harris², Rebecca Kelly²</i> ¹ City St George's University of London, London ² The George Institute for Global Health, Sydney, Australia	
09.56 – 10.02	Operative exposure for senior vascular trainees in peripheral vascular disease and abdominal aortic aneurysm over the last 10 years	
	<i>Steve Tang¹, Kaji Sritharan²</i> ¹ Aintree University Hospital, Liverpool ² York Hospital, York	

10.02 – 10.08	<p>Spatiotemporal trends in peripheral artery disease prevalence in England – primary care registry data analysis</p> <p>Michal Kawka¹, James Budge¹, Anna Pouncey¹, Bilal Azhar¹, Ian Loftus², Peter Holt¹, Iain Roy¹</p> <p>¹St George's Vascular Institute, City St George's University of London, London</p> <p>²Department of Vascular Surgery, St George's Hospital, London</p>
10.08 – 10.14	<p>Stent configuration for endovascular iliocaaval reconstruction - a systematic review</p> <p>Ashwin Sivaharan¹, Celina Harmen², Alice Coates², Babatunde Alatishe¹, Rana Khalil^{3,4}, Tamer El-Sayed¹, Sandip Nandhra¹</p> <p>¹Freeman Hospital, Newcastle</p> <p>²Newcastle University, Newcastle</p> <p>³Hull Royal Infirmary, Hull</p> <p>⁴Kasr Al-Aini Hospital, Cairo, Egypt</p>
10.14 – 10.20	<p>Femoropopliteal angioplasty for long lesions</p> <p>Procedural success, patency, and reintervention in a high-risk cohort</p> <p>Mahmoud Badawi Hassan¹, Mohamed Abdelhamid², Shady Hemeda²</p> <p>¹ESNEFT, Colchester</p> <p>²St George's University Hospitals, London</p>
10.20 – 10.26	<p>The relevance, specificity, and usability of the current Patient-reported Outcome Measure for Chronic Limb Threatening Ischaemia. A systematic review of reported PROMs</p> <p>Akam Shwan^{1,2,3}, Beth Cheshire¹, Segun Lamidi¹, Imelda Black¹, Coral Pepper¹, John SM Houghton^{1,2,3}, Robert D Sayers^{1,2,3}</p> <p>¹Department of Cardiovascular Sciences, University of Leicester, Leicester</p> <p>²Leicester Vascular Institute, University Hospitals of Leicester NHS Trust, Leicester</p> <p>³NIHR Leicester Biomedical Research Centre, Leicester</p> <p>⁴Clinical Librarian Service, University Hospitals of Leicester NHS Trust, Leicester</p>
10.30 – 10.50	<p>GUEST LECTURE (15 + 5 minutes)</p> <p>Introduced by Martin Claridge</p> <p>First in man technologies for vascular disease: What have we learnt from the past and what do we still need to learn?</p> <p>Andrew Holden, Director of Interventional Radiology, Auckland City Hospital, New Zealand</p>
10.50 – 11.20	COFFEE

Thursday 26th June

11.20 – 11.40	DEBATE (5 minutes each)	
	Chairs: Paul Moxey, Rachel Bell & Jonathan Boyle	
	Modern endovascular techniques in lower limb revascularisation are no better than stent and plain old balloon angioplasty	
	FOR	AGAINST
	Peter Schneider, Professor of Surgery, Division of Vascular & Endovascular Surgery, University of California, San Francisco, USA Ash Patel, Consultant Vascular Surgeon, Guy's & St Thomas' Hospital, London	Anahita Dua, Vascular Surgeon, Massachusetts General Hospital and Associate Professor of Surgery, Harvard Medical School, Boston, USA Athanasios Saratzis, Professor of Vascular Surgery in the NIHR Leicester Biomedical Research Centre, Leicester
11.40 – 12.00	SOCIETY SPONSOR	GORE MEDICAL
	Chairs: Paul Moxey & Rachel Bell & Jonathan Boyle	
	Optimising Aortic Arch Treatment: Clinical Experience with the First Off-the-Shelf Single Side-Branch Device for LSA Preservation	
	Marcus Brooks, Consultant Vascular Surgeon, North Bristol NHS Trust	
12.00 – 12.20	GUEST LECTURE (15 + 5 minutes)	
	Chairs: Emma Wilton & Andy Wigham	
	Cutting edge venous stenting and how to achieve success	
	Manj Gohel, Consultant Vascular Surgeon, Cambridge University Hospitals	
12.20 – 12.40	SOCIETY SPONSOR	MEDTRONIC
	Chairs: Emma Wilton & Andy Wigham	
	Leveraging AI to plan and predict outcomes in EVAR procedures	
	Dominic Howard, Consultant Vascular Surgeon, John Radcliffe University Hospital, Oxford	

Thursday 26th June

12.40 – 13.00	UPDATE ON ACTIVE ENDOVASCULAR TRIALS IN THE UK (3 minutes)	
	Chairs: Dave Bosanquet & Becky Sandford	
	EARNEST – Colin Bicknell CLARITY – Chris Twine KID – Thanos Saratzis ESTABLISH – Sandip Nandhra EVOCC - Thanos Saratzis	
13.00 – 13.10	BSET PUMP PRIMING AWARD REPORT	
	Chairs: Dave Bosanquet & Becky Sandford	
13.00 – 13.05	Mohamed Abdelhalim	
13.05 – 13.10	James Budge	
13.10 – 14.15	LUNCH	
14.15 – 14.35	DEBATE (7 + 7 + 6 minutes)	
	Chairs: Paul Bevis, Mike Jenkins & Anahita Dua	
	End of the Rainbow - Further developments in endovascular aortic intervention will not be beneficial and open surgery will remain the only reliable and durable solution for areas not currently treated by EVAR	
	FOR	AGAINST
	Andrew Holden, Director of Interventional Radiology, Auckland City Hospital, New Zealand	Tara Mastracci, Complex Aortic Surgeon, Barts Heart Hospital, London
14.35 – 14.55	SOCIETY SPONSOR	
	Chairs: Paul Bevis, Mike Jenkins & Anahita Dua	
	Customised solutions for the LSA: A single centre study	
	Donald Adam, The Birmingham Vascular Centre, Heartlands Hospital	
		
14.55 – 15.35	ABSTRACT SESSION 2 (4 + 2 minutes)	
	Chairs: Ashish Patel, Sandip Nandhra & Colin Bicknell	
14.55 – 15.01	The impact of aneurysm extent on mid-term survival after elective fenestrated-branch endovascular aortic repair	
	Valentina Scarati ¹ , Katarzyna Powezka ^{2,1} , Thomas Lyons ^{2,1} , Massimo Vezzosi ¹ , Maciej Juszcak ^{1,2} , Martin Claridge ¹ , Donald Adam ¹	
	¹ University Hospitals Birmingham, Birmingham ² University of Birmingham, Birmingham	

Thursday 26th June

15.01 – 15.07	<p>Effectiveness of the MANTA Vascular Closure Device for repair of ruptured abdominal aortic aneurysm by Endovascular Aneurysm Repair (RAAA-EVAR) in RAAA- A pilot study</p> <p>Elsamoual Mohammed, Arindam Chaudhuri, Ramita Dey Bedford NHS Hospital, Bedford</p>
15.07 – 15.13	<p>Central Blood Pressure and Variability Evaluation (CAVE-ON) Assessing the impact of blood pressure and blood pressure variability on AAA growth rates</p> <p>Edmund Charles, Emanuela Falaschetti, Janet Powell, Neil Poulter, Colin Bicknell Imperial College London, London</p>
15.13 – 15.19	<p>Fenestrated-branch endovascular aortic repair in octogenarians</p> <p>Thomas Lyons^{1,2}, Katarzyna Powezka^{1,2}, Valentina Scarati¹, Massimo Vezzosi¹, Martin Claridge¹, Maciej Juszcak^{1,2}, Donald Adam¹ ¹University Hospitals Birmingham, Birmingham ²University of Birmingham, Birmingham</p>
15.19 – 15.25	<p>The impact of introducing a surgeon-led emergency EVAR service on outcomes and cost efficiency in ruptured aortic aneurysm management A UK single-centre experience</p> <p>Ahmed Hassan, Ahmed Elshiekh, Nick Matharu, Alex Sergiou, Ashraf Elsharkawy, Asif Mahmood UHCW-NHS, Coventry</p>
15.25 – 15.31	<p>Bridging the Gap: A propensity-matched analysis of sex differences in complex EVAR</p> <p>Katarzyna Powezka^{1,2}, Valentina Scarati², Thomas Lyons^{1,2}, Massimo Vezzosi², Martin Claridge², Donald Adam², Maciej Juszcak^{1,2} ¹University of Birmingham, Birmingham ²University Hospitals Birmingham, Birmingham</p>
15.35 – 15.55	<p>GUEST LECTURE (15 + 5 minutes)</p> <p>Chairs: Ashish Patel and Sandip Nandhra</p> <p>Management of lower limb arterial disease: Where does distal vein arterialisation and personalised antiplatelet fit in?</p> <p>Anahita Dua, Vascular Surgeon, Massachusetts General Hospital and Associate Professor of Surgery, Harvard Medical School, Boston, USA</p>
15.55 – 16.15	TEA

16.15 – 16.35	SOCIETY SPONSOR		ABBOTT
	Chairs: Kaji Sritharan, James McCaslin & Barend Mees		
	Initial experience of Stealth 360™ in a UK centre		
	Badri Vijaynagar, Consultant Vascular and Endovascular Surgeon, University Hospitals of Leicester NHS Trust		
16.35 – 16.55	GUEST LECTURE (15 + 5 minutes)		
	Chairs: Kaji Sritharan, James McCaslin & Barend Mees		
	When enough is enough: Defining the “no option” foot in the era of extreme limb salvage procedures		
	Peter Schneider, Professor of Surgery, Division of Vascular & Endovascular Surgery, University of California San Francisco, USA		
16.55 – 17.55	AORTIC PRIZE ABSTRACT SESSION (7 + 3 minutes)		
	Chairs: Andrew Holden, Tara Mastracci and Shiva Dindyal		
16.55 – 17.05	Long-term outcomes of Fenestrated Endovascular Repair (FEVAR) a GLOBALSTAR registry study		
	Aurélien Guérout ¹ , British Society of Endovascular Therapy (BSET) ² , GLOBALSTAR Collaborators ²		
	¹ St George’s Vascular Institute, London ² BSET		
17.05 – 17.15	Comparison of outcomes of Physician Modified Grafts and Custom Made Devices - A matter of aesthetics?		
	Thomas Lyons ^{1,2} , Katarzyna Powezka ^{1,2} , Valentina Scarati ² , Massimo Vezzosi ² , Martin Claridge ² , Donald Adam ² , Maciej Juszcak ^{2,1}		
	¹ University of Birmingham, Birmingham ² University Hospitals Birmingham, Birmingham		
17.15 – 17.25	The detrimental effects of Endovascular Aneurysm Repair on aortic compliance		
	Dimitrios Vlastos ¹ , Athanasios Saratzis ¹ , Stefan Klimach ² , Emily Salt ³ , Arooj Siddique ⁴ , Rob D Sayers ¹ , Matthew J Bown ¹		
	¹ Department of Cardiovascular Sciences, University of Leicester, Leicester ² Nottingham University Hospitals NHS Trust, Nottingham		
	³ University Hospitals Derby and Burton NHS Foundation Trust, Derby ⁴ University Hospitals of Leicester NHS Trust, Leicester		

Thursday 26th June

17.25 – 17.35	<p>Unsupervised machine learning for identifying thrombogenic morphological phenotypes in abdominal aortic aneurysms using fully automated volume-segmented imaging</p> <p>Michal Kawka¹, James Budge¹, Bilal Azhar¹, Iain Roy¹, Manj Gohel², Matthew Bown³, Ruth Scicluna³, Janet T Powell⁴, Anna L Pouncey¹</p> <p>¹St George's Vascular Institute, City St George's University of London, London</p> <p>²Department of Vascular Surgery, Cambridge University Hospitals, Cambridge</p> <p>³Department of Cardiovascular Sciences and NIHR Leicester Biomedical Research Centre, Leicester</p> <p>⁴Department of Surgery and Cancer, London</p>				
17.35 – 17.45	<p>Fenestrated-branch endovascular aortic repair after prior endovascular or open AAA repair is associated with inferior mid-term survival compared to primary repair</p> <p>Katarzyna Powezka^{1,2}, Thomas Lyons², Valentina Scarati², Massimo Vezzosi², Martin Claridge², Maciej Juszcak¹, Donald Adam²</p> <p>¹University of Birmingham, Birmingham</p> <p>²University Hospitals Birmingham, Birmingham</p>				
17.45 – 17.55	<p>Novel protocol for comprehensive assessment of Type B Aortic Dissection morphology: A validated and reproducible protocol for clinical and research applications</p> <p>Barnaby Farquharson, James Budge, Bilal Azhar, Aurélien Guérout, Mital Desai, Ian Loftus, Peter Holt</p> <p>St George's University London, London</p>				
17.55	<p>THE PRESIDENT'S DEBATE</p> <p><i>Introduced by Martin Claridge</i></p> <p>Shift left, stay left - translational research is the gold standard in improving outcomes for patients with vascular disease</p> <table> <tr> <td>FOR</td><td>AGAINST</td></tr> <tr> <td><i>Bijan Modarai</i></td><td><i>Ian Chetter</i></td></tr> </table>	FOR	AGAINST	<i>Bijan Modarai</i>	<i>Ian Chetter</i>
FOR	AGAINST				
<i>Bijan Modarai</i>	<i>Ian Chetter</i>				
18.15	END OF DAY ONE				
19.45	DINNER				

8.30 – 9.00	ABSTRACT SESSION 3 (4 + 2 minutes)
	<i>Chairs: Shiva Dindyal, Katharine Lewis & Ian Chetter</i>
8.30 – 8.36	<p>Implementation of Machine Learning and Natural Language Processing in clinical practice facilitates identification of patients with Acute Aortic Syndrome</p> <p><i>Katarzyna Powezka^{1,2,3}, Karin Slater², Andreas Karwath², Michael Wall^{3,2}, Georgios Gkoutos², Massimo Vezzosi¹, Martin Claridge¹, Paul Clift¹, Donald Adam¹, Maciej Juszcak^{1,2}</i></p> <p>¹University Hospitals Birmingham, Birmingham ²University of Birmingham, Birmingham ³Dudley Group NHS Trust, Dudley</p>
8.36 – 8.42	<p>Systematic review and meta-analysis of matrix metalloproteinases in peripheral arterial disease</p> <p><i>Chloe Harding^{1,2}, Philip Stather¹</i></p> <p>¹Norfolk and Norwich University Hospital, Norwich ²University of East Anglia, Norwich</p>
8.42 – 8.48	<p>Clinical predictors of two-year survival in patients with infrarenal and juxtarenal abdominal aortic aneurysms</p> <p><i>Valentina Scarati¹, Katarzyna Powezka^{2,1}, Thomas Lyons^{2,1}, Massimo Vezzosi¹, Martin Claridge¹, Donald Adam¹, Maciej Juszcak^{1,2}</i></p> <p>¹University Hospitals Birmingham, Birmingham ²University of Birmingham, Birmingham</p>
8.48 – 8.54	<p>Acute upper limb ischaemia outcomes meta-analysis</p> <p><i>Angela Lee^{1,2}, Navanith Murali¹, Chloe Harding², Joseph Borucki^{1,2}, Philip Stather^{1,2}</i></p> <p>¹NNUH, Norwich ²UEA, Norwich</p>
8.54 – 9.00	<p>A comprehensive systematic review of all reported outcome measures in studies of chronic limb threatening ischaemia First step toward a core outcome set</p> <p><i>Akam Shwan^{1,2,3}, Beth Cheshire¹, Segun Lamidi¹, Imelda Black¹, Coral Pepper⁴, John SM Houghton^{1,2,3}, Robert D Sayers^{1,2,3}</i></p> <p>¹Department of Cardiovascular Sciences, University of Leicester, Leicester ²Leicester Vascular Institute, University Hospitals of Leicester NHS Trust, Leicester ³NIHR Leicester Biomedical Research Centre, Leicester ⁴Clinical Librarian Service, University Hospitals of Leicester NHS Trust, Leicester</p>

Friday 27th June

9.00 – 9.20	VASCULAR SOCIETY SESSION	
	Chairs: Ian Chetter & Keith Jones	
	Inclusivity and engagement across the activities of the Vascular Society Ian Chetter	
	What have we learnt from aortic device data collection on the NVR? Colin Bicknell	
	NCEPOD-ALI: What would it take for percutaneous embolectomy to be first line therapy in ALI? Keith Jones	
9.20 – 9.30	GOLD SPONSOR PRESENTATION	TERUMO AORTIC
	Chairs: Colin Bicknell & Raghuram Lakshminarayan	
	The Role of EVAR in Aneurysm Healing Insights from Sac Regression Data	
	Dr Martin Teraa, University Medical Centre Utrecht	
9.30 – 9.50	DEBATE (7 + 7 + 6 minutes)	
	Chairs: Rachel Bell and Raghuram Lakshminarayan	
	No time to lyse: Treatment of chronic DVT is the only worthwhile intervention as there is no long-term benefit from treatment of acute DVT	
	FOR	AGAINST
	Rob Morgan, Consultant Interventional Radiologist, St George's Vascular Institute, London	Narayanan Thulasidasan, Consultant Interventional Radiologist, Guy's & St Thomas' Hospital, London
9.50 – 10.00	GOLD SPONSOR PRESENTATION	PENUMBRA
	Chairs: Rachel Bell & Emma Wilton	
	Computer Assisted Vacuum Thrombectomy in Arterial Thrombus Management: Patient Selection and Technology Application	
	Paul Moxey, Consultant Vascular Surgeon, St George's Vascular Institute, London	

Friday 27th June

10.00 – 10.30	TRAINING SYMPOSIUM (7 + 7 + 7 minutes)	
	WHAT MAKES A VASCULAR SPECIALIST?	
	Chairs: Rob Morgan, Paul Moxey & Emma Wilton	
	Should there only be one training pathway for specialists who treat vascular disease?	
	Andrew Holden, Director of Interventional Radiology, Auckland Regional Public Health Service, New Zealand	
	Would vascular surgery be better aligned with cardiothoracic surgery than general surgery?	
	Anahita Dua, Vascular Surgeon, Massachusetts General Hospital and Associate Professor of Surgery, Harvard Medical School, Boston, USA	
10.30 – 11.30	What does the perfect vascular training programme of the future look like in the UK?	
	Keith Jones, Consultant Vascular Surgeon, Frimley Health Foundation Trust	
	CASE DISCUSSIONS	
	Chair: Bijan Modarai	
10.30 – 11.30	Barend Mees, Professor of Vascular Surgery, Maastricht Heart+Vascular Center, Netherlands	
	Peter Schneider, Professor of Surgery, Division of Vascular & Endovascular Surgery, University of California, San Francisco, USA	
	Martin Claridge, Consultant Vascular Surgeon, University Hospitals Birmingham NHS Foundation Trust	
11.30 – 12.10	BRUNCH	
12.10 – 12.20	GOLD SPONSOR PRESENTATION	
	BENTLEY	
	Chairs: Katharine Lewis & Sandip Nandhra	
	BeFlared: First Impressions UK	
12.10 – 12.20	Bijan Modarai, Consultant Vascular Surgeon, King's College London	
12.20 – 12.40	GUEST LECTURE (15 + 5 minutes)	
	Chairs: Katharine Lewis & Sandip Nandhra	
	What is an acceptable landing zone for aortic dissection - how do you make one in the acute situation?	
	Tara Mastracci, Complex Aortic Surgeon, Barts Heart Hospital, London	

12.40 – 12.50	GOLD SPONSOR PRESENTATION		PHILIPS
	Chairs: Peter Schneider, James McCaslin & Nikesh Dattani		PHILIPS
	From Angio to IVUS: Evolving my PAD Treatment Algorithm		
	Katharine Lewis, Consultant Interventional Radiologist, Somerset NHS Foundation Trust		
12.50 – 13.50	PERIPHERAL PRIZE ABSTRACT SESSION (7 + 3 minutes)		
	Chairs: Peter Schneider, James McCaslin & Nikesh Dattani		
12.50 – 13.00	Feasibility phase of Platelet Research in Optimising Response in Treatment for Angioplasty (PRiORiTY) study		
	Meiling MacDonald-Nethercott, Chisom Aghaji, Harjeet Rayt, Thanos Saratzis, Robert Sayers, Badri Vijaynagar Glenfield Hospital, University Hospitals of Leicester, Leicester		
13.00 – 13.10	Real-world experience of Indigo aspiration thrombectomy for acute limb ischaemia		
	Madhurima Chetan ¹ , Melosa Millar Mills ¹ , Rezhwan Ahmed ¹ , Aaron Joseph ¹ , Dominic Howard ^{1,2} , Zahi Qamhawi ¹ , Daniel Kearns ¹ , Rafiuddin Patel ¹ , Andrew Wigham ¹ ¹ Oxford University Hospitals, Oxford ² University of Oxford, Oxford		
13.10 – 13.20	Endovascular vs. open surgical repair of popliteal artery aneurysms A meta-analysis		
	Georgios Koufopoulos ¹ , Konstantinos Antonopoulos ² ¹ Liverpool Vascular and Endovascular Service (LiVES), Liverpool ² Department of Vascular Surgery, Attikon University Hospital, Athens, Greece		
13.20 – 13.30	Endovascular treatment with intravascular lithotripsy for common femoral artery disease: A safe and feasible alternative to open surgery		
	Sarah Jane Messeder ^{1,2} , Athanasios Saratzis ^{1,2} , Constantinos Poyiatzis ^{1,2} , Charles Mensah ² , Badri Vijaynagar ² ¹ Department of Cardiovascular Science, University of Leicester, Leicester ² Leicester Vascular Institute, Leicester		

13.30 – 13.40	<p>The fate of the contralateral limb after major lower limb amputation for peripheral arterial disease or diabetes mellitus</p> <p>Robert Leatherby^{1,2}, Bilal Azhar^{1,2}, Peter Holt^{1,2}, Iain Roy^{1,2}</p> <p>¹St George's Vascular Institute, St George's University Hospital NHS Foundation Trust, London</p> <p>²Cardiovascular & Genetics Institute, St George's University of London, London</p>
13.40 – 13.50	<p>Clinical significance of high on-treatment platelet reactivity in patients taking P2Y12 inhibitors following lower limb revascularisation for peripheral artery disease: A systematic review and meta-analysis</p> <p>Akam Shwan^{1,2,3}, Tolaz Sultan⁴, Harry Summers⁵, Rameez Qaisar², Coral Pepper⁶, Sarah Jane Messeder^{1,2,7}, Harjeet Rayt^{1,2}, Athanasios Saratzis^{1,2,7}, Robert D Sayers^{1,2,7}, Badri Vijaynagar¹</p> <p>¹Department of Cardiovascular Sciences, University of Leicester, Leicester</p> <p>²Leicester Vascular Institute, University Hospitals of Leicester NHS Trust, Leicester</p> <p>³Leicester Biomedical Research Centre, Leicester</p> <p>⁴Faculty of Medicine and Health Sciences, University of Buckingham, Buckingham</p> <p>⁵NIHR Leicester Vascular Institute, University Hospitals of Leicester NHS Trust, Leicester</p> <p>⁶Clinical Librarian Service, University Hospitals of Leicester NHS Trust, Leicester</p> <p>⁷NIHR Leicester Biomedical Research Centre, Leicester</p>
13.50 – 14.10	CHEE SOONG MEMORIAL LECTURE
	Introduced by Bijan Modarai
	Vascular Surgery - Science or Art?
	Nick Cheshire , Professor of Vascular Surgery and Head of Vascular Surgery, Royal Brompton & Harefield Hospitals, London
14.10	PRESENTATION OF PRIZES AND CLOSE

Medtronic

Aortic+ SmartPlan Pro

New

Endoleak Risk Assessment[‡] now available in SmartPlan Pro

Introducing **SmartPlan Pro**^{*}, the premium version of SmartPlan, is now part of our Aortic+ portfolio.

SmartPlan is a **Remote Sizing and Planning Solution**, backed by a team of **specialists with extensive experience**, supporting physicians and Medtronic field with pre-procedural aortic sizing and planning both for standard and complex cases.

The **SmartPlan Pro version** is being rolled out across Europe to offer **cutting-edge digital-twin technology and type Ia endoleak risk assessment**.

New service already available in some countries in Europe.
Contact us to be the first to access SmartPlan Pro in your country.

12.000+
cases
supported^{**}

CE Marked[†]

Precise and
personalized[‡]

Refined intuition

Patient centric

See your “**patient’s post-op CT before the intervention**” thanks to advanced simulation[‡].

POSTERS

POSTERS

POSTER 1

A survey of early year consultant vascular surgeons in the UK to assess well-being, support and the availability of mentoring

Kaji Sritharan¹, Matt Popplewell², Paddy Coughlin³, Hannah Travers⁴, Claire Dawkins⁵, Andy Garnham²

¹York & Scarborough Teaching Hospitals NHS Trust, York

²Black Country Vascular Network, Dudley

³Leeds General Hospital, Leeds

⁴Royal Devon University Healthcare NHS Foundation Trust,, Devon

⁵Newcastle upon Tyne Hospitals NHS Foundation Trust, Newcastle

POSTER 2

Intravascular lithotripsy (IVL) in treating aortic occlusive disease: A pilot study

Elsamoual Mohammed, Arindam Chaudhuri, Ramita Dey

Bedford NHS Hospital, Bedford

POSTER 3

From hopeless to healing: Recanalising deep veins in reformed intravenous drug users

Joseph Winstanley, John Reicher, Sandip Nandhra

Freeman Hospital, Newcastle upon Tyne

POSTER 4

Propensity Matched Analysis of AAA repair for patients with concurrent peripheral arterial disease

Navanith Murali Murali^{1,2}, Angela Lee¹, Lukschana Senathirajah¹, Eman Otify², Tariq Ali^{1,2}, Philip Stather^{1,2}

¹Norfolk and Norwich University Hospital, Norwich

²University of East Anglia, Norwich

POSTER 5

Early and midterm outcomes of inner branch EVAR for complex aortic aneurysms

Amr Eissa, Mohamed Elsherif

Sheffield Teaching Hospitals, Sheffield

POSTERS

POSTER 6

Endovascular aneurysm repair with Perclose Proglide™ percutaneous access: success rate and factors associated with access failure

Santiago Mier y Teran-Ellis, Shaneel Patel, Chyu Yan Naing, Emmanuel Katsogridakis, Simon Neequaye, Flavius Parvulescu, Jonathan Smout, Robert Fisher
Liverpool University Hospitals NHS Foundation Trust, Aintree University Hospital, Liverpool

POSTER 7

Preliminary efficacy of a supervised walking program for intermittent claudication: A prospective analysis

Mahmoud Badawi Hassan¹, Deona Chan², Laura Wild², Sohail Choksy²

¹Colchester

²ESNEFT, Colchester

POSTER 8

Mental health among NHS clinical staff and patients in the vascular surgery department

Anwar Al-Kassar, Mohamed Mustafa, Ragai Makar, Thomas Nicholas
Countess of Chester Hospital, Chester

INNOVATION. ALWAYS.

Patient-specific solutions

Produced
in less than
18
working days*

80,000
custom-made
devices planned

30+
years of
experience from
the aortic valve
to the iliacs

*Average working days from July to December 2024.

Custom-made device refers to a device specifically made in accordance with a written prescription of any person authorised by national law by virtue of that person's professional qualifications which gives, under that person's responsibility, specific design characteristics, and is intended for the sole use of a particular patient exclusively to meet their individual conditions and needs. Custom-made devices are not available in all markets, and availability is subject to local regulatory approval.

OUR SPONSORS

Abbott

At Abbott, we're dedicated to helping people live more fully, in everything we do. We're creating the future of healthcare through life-changing technologies and products that make you healthier and stronger, quickly identify when you have a medical need, and treat conditions to help you get back to doing what you love. With headquarters in north suburban Chicago, we serve people in more than 160 countries with leading medical devices, diagnostics, nutrition products and branded generic medicines. Our 114,000 colleagues are helping millions of people to live better and healthier, every day around the world.

BD

BD is a global leader in medical technology, enhancing health through innovations in medical discovery, diagnostics, and care delivery. BD excels in patient and healthcare worker safety, offering solutions for research, diagnostics, medication management, infection prevention, surgery, and diabetes care. BD Interventional pioneers devices to improve patient outcomes.

Bentley

Bentley's passion is the development, manufacturing and distribution of innovative implants for minimal-invasive treatments of vascular diseases. Since market launch in 2012 we rapidly expanded worldwide. Thanks to our international network of exclusive distribution partners we are represented in more than 80 countries – in some we are already market leader.

Boston Scientific

Boston Scientific transforms lives through innovative medical technologies that improve the health of patients. As a global medical technology leader for more than 45 years, we advance science for life by providing a broad range of high-performance solutions that address unmet patient needs and reduce the cost of health care. Our portfolio of devices and therapies helps physicians transforming the lives of patients through minimally invasive treatments for vascular conditions, including peripheral artery disease, pulmonary embolism, and deep vein thrombosis. We provide a range of options to treat patients, with advanced peripheral imaging, endovascular solutions, and clot management techniques.

OUR SPONSORS

Cook Medical

A global pioneer in medical breakthroughs, Cook Medical is committed to creating effective solutions that benefit millions of patients worldwide. Today, we combine medical devices, drugs, biologic grafts and cell therapies across more than 16,000 products serving more than 40 medical specialties. Founded in 1963 by a visionary who put patient needs and ethical business practices first, Cook is a family-owned company that has created more than 10,000 jobs worldwide.

For more information, visit www.cookmedical.eu

Cordis

Cordis is a global leader in interventional vascular technology, delivering innovative, less-invasive cardiovascular products for over 60 years. With a strong global presence, we focus on cardiology and endovascular care, offering high-quality catheters, stents, balloons, guide wires, and vascular closure devices, supported by expert training and services.

Haemonetics

Individualised Antithrombotic Treatment

Our TEG6s platelet mapping solution can monitor platelet response to the anti-platelet drugs your patients take daily. Large numbers of patients don't respond to Clopidogrel, tailoring treatment to alternative therapies may be of benefit to individualise their therapy.

Medtronic

Medtronic's aortic vision is to advance patient care globally with intelligent, evidence-based solutions throughout the aortic disease continuum, and now feeds into every thought, action and decision taken.

Penumbra

Penumbra, Inc., the world's leading thrombectomy company, is focused on developing the most innovative technologies for challenging medical conditions such as ischemic stroke, venous thromboembolism such as pulmonary embolism, and acute limb ischemia. Our broad portfolio, which includes computer assisted vacuum thrombectomy (CAVT), centers on removing blood clots from head-to-toe with speed, safety and simplicity. By pioneering these innovations, we support healthcare providers, hospitals and clinics in more than 100 countries, working to improve patient outcomes and quality of life.

For more information visit www.penumbrainc.com and connect on Instagram, LinkedIn and X.

Philips

At Philips, our purpose is to improve people's health and well-being through meaningful innovation. We offer one of the broadest portfolios of interventional solutions in the industry, helping clinicians treat patients more effectively and efficiently. Only Philips offers the powerful combination of advanced imaging and specialized treatment options designed to accurately assess inside the vessel, successfully select the right treatment algorithm, and optimize outcomes for your patients. As a technology company, we innovate for people with one consistent belief: there's always a way to make life better.

OUR SPONSORS

Shockwave Medical

Shockwave Medical, a business unit of Johnson & Johnson MedTech, is a leader in the development and commercialization of innovative products that are transforming the treatment of cardiovascular and peripheral arterial disease. Its first-of-its-kind Intravascular Lithotripsy (IVL) technology has transformed the treatment of calcified arteries by safely using sonic pressure waves to disrupt challenging calcified plaque, resulting in significantly improved patient outcomes. Offering an effective strategy for calcified PAD, IVL provides superior vessel prep and excellent long-term results in calcified vessels. Our low-risk, effective mechanism of action (MOA) delivers consistent results and powerful calcium-cracking capabilities — even in the hardest-to-reach vessels. Learn more at www.shockwavemedical.com

Terumo Aortic

At Terumo Aortic, we partner with our customers to revolutionise aortic care. We deliver innovation, versatility and precision with the broadest range of solutions that can be personalised for every patient. We are further complementing our implantable device portfolio through the development of digital technologies.

VP Med

VP MED is a leading UK-based MedTech company driving the adoption of innovative, patient-focused technologies. We collaborate with clinical leaders, offer nationwide support, and deliver educational programmes that empower healthcare professionals. Our mission is to help people through meaningful medical innovation and dedicated product support.

W.L. Gore & Associates

W. L. Gore & Associates is a global materials science company dedicated to transforming industries and improving lives. Since 1958, Gore has solved complex technical challenges in demanding environments — from outer space to the world's highest peaks to the inner workings of the human body. With more than 13,000 Associates and a strong, team-oriented culture, Gore generates annual revenues of \$5 billion.

For more information, visit gore.com

Gore engineers medical devices treat a range of cardiovascular and other health conditions. With more than 55 million medical devices implanted over the course of more than 45 years, Gore builds on its legacy of improving patient outcomes through research, education and quality initiatives. Product performance, ease of use and quality of service provide sustainable cost savings for physicians, hospitals and insurers. Gore is joined in service with clinicians and through this collaboration we are improving lives.
